

INTELLIGENCE THAT SEES. UNDERSTANDS. ACTS.

AI-powered platforms for smarter security, connected infrastructure and intelligent operations.

BUILDING INTELLIGENCE FOR THE REAL WORLD

BitVivid Solutions Pvt. Ltd. combines **Artificial Intelligence, Computer Vision, Generative AI, IoT, 5G, cloud and edge technologies** to turn complex video, data and connected infrastructure into actionable intelligence. Our solutions help organizations detect events, understand situations, automate workflows and respond faster.

OUR PRODUCT PORTFOLIO

01 E2E Surveillance Management Unified VMS, command & control, traffic intelligence and incident response.	02 Intelligent Surveillance & Evidence AI video intelligence with secure evidence handling and chain-of-custody.
03 AI Video Analytics & XConnected AI Real-time detection for safety, security, people, vehicles and operations.	04 GenAI Network Management (NMS) Infrastructure health, diagnostics, proactive monitoring and remediation guidance.
05 Integrated Traffic Management ANPR, violations, vehicle classification and traffic-event intelligence.	06 AI-Powered Public Announcement IP/SIP-based, zone-controlled, scheduled and monitored announcements.
07 Enterprise Monitoring System Centralized visibility into devices, servers, networks and operational alerts.	08 XConnected QSR Restaurant operations intelligence for hygiene, safety, order checks and compliance.
09 AI / GenAI & VLM Solutions Knowledge assistants, video search and summarization, agentic workflows and custom AI.	10 Blockchain Evidence Management Trusted digital evidence records with traceability and tamper-resistant handling.

BUILT ON TECHNOLOGY. DESIGNED FOR IMPACT.

AI & COMPUTER VISION	GENERATIVE AI / VLM	IoT & 5G	CLOUD & EDGE	AUTOMATION	INTEGRATION-READY
