

GROW YOUR BUSINESS WITH US!

AN AI-DRIVEN OUTLET OPERATION, EMPLOYEE & ORDER MANAGEMENT SOLUTION FOR RESTAURANTS.

USE CASES

CALCULATE COOKING TIME

XConnectedQSR keeps track of dish's cooking time and notifies the chef if it varies from the pre-determined time.

INCREASE ORDER ACCURACY

XConnectedQSR keeps the order and invoice items in check, in case of any inconsistencies.

MAINTAIN HEALTH AND SAFETY STANDARD

XConnectedQSR keeps track of a restaurant's defined compliance and sends out warnings when a violation is discovered.

MAINTAIN RESTAURANT COMPLIANCE

XConnectedQSR keeps track of a restaurant's defined compliance and sends out warnings when a violation is discovered.

FIRE SAFETY

XConnectedQSR monitors the workplace 24 hours a day, 7 days a week and warns security/authorities in real time if it detects a fire.

BEFORE PACKING, CALCULATE THE TEMPERATURE OF THE FOOD

XConnectedQSR monitors and detects the temperature of the food immediately before packing, keeps track of it and warns the proper authorities if the temperature falls outside of the recommended range.
